

Please do not change or weaken the Indiana Telephone Privacy laws, rules or regulations. Unsolicited calls to our homes and business disrupt our ability to perform business, cost us money, interfere with the privacy and sanctity of our home and family. Additionally, they abuse a service (telephone) that we as the consumer have to pay for - we do not hire on to this service to receive unsolicited calls or advertising - we subscribe for our ability to communicate with chosen entities.

Again - please do not allow any petitioner to weaken or change the Indiana Telephone Privacy laws, rules or regulations.

Respectfully,
John T. Pickford
Executive Vice President
Crown Corr Inc.
